### WORK EXPERIENCE

**01/02/2021 – CURRENT** – Ljubljana, Slovenia

#### Founder

Aerio

Aerio is a project company, focusing on software development.

We're a young team of developers who aspire to provide affordable software for everyone.

Our projects have mostly been either websites for smaller companies or startups, and software or apps that other companies outsourced to us.

**09/03/2022 – CURRENT** – Ljubljana, Slovenia

#### Software Developer

eAsistent eŠola d.o.o.

**15/11/2021 – CURRENT** – Ljubljana, Slovenia

#### Marketing Team Lead & Developer

SimpliServers

I joined SimpliServers, a server hosting provider, and took on the task of managing and creating content for all of our social media platforms, such as Instagram, Twitter, TikTok and more.

Due to my technical skills, I also collaborate on in-house development projects.

**19/11/2020 – 01/03/2022** – Ljubljana, Slovenia

#### Software Developer

IPM Komunikacije d.o.o.

In the company IPM Komunikacije d.o.o. I initially collaborated with a team of three developers on a project which used the technology Vue.js for the frontend and NodeJS for the backend. Later on, I worked on a five-person team on a project using the Flutter framework for the mobile app and NodeJS for the backend.

**16/05/2021 – 06/11/2021** – Ljubljana, Slovenia

#### IT Team Lead

More4Youth d.o.o. | Fundl

In May 2021, myself and my team from Aerio joined the Fundl startup as few of the first members and took on the role of creating and maintaining the app, website, administration panel along with the entire system.

My role was to oversee and collaborate on all development and communicate with other teams within the company such as design, business development, marketing, and the management. In May 2021, myself and my team from Aerio joined the Fundl startup as few of the first members and took on the role of creating and maintaining the app, website, administration panel along with the entire system. My role was to oversee and collaborate on all development and communicate with other teams within the company such as design, business development, marketing, and the management.

**19/06/2019 – 19/08/2021** – Ljubljana, Slovenia

## Lead Developer

YFLab d.o.o.

At the YourFlare startup, that progressed into the company YFLab d.o.o., my initial task was to create a web app for clients to use as their main tool to interact with our product. Later on, we wanted to create a mobile app, so I took on that task and started the development of our mobile app in the Flutter framework.

After being a developer at the firm for less than a year, I was presented with the task of overseeing the development, along with the creation and maintenance of the internal tools used for business processes.

## PROJECTS

**2019 – 2020**

### Usability of LoRa technology in IoT within cities (translated title)

<https://drive.google.com/file/d/1RLZ30Z8plejcdz7t-ljr0SeKp4QhmL9N/view?usp=sharing>

In collaboration with a fellow student (Urh Jamšek), I researched the usability of LoRa technology in IoT within cities. We build 5 weather stations, which communicated to a central station via LoRa technology in the city Ljubljana. The data was then sent to a MariaDB database and then displayed to a UI built in PHP. The software for the weather station was written in C++ modified for the Arduino boards

**29/10/2020 – CURRENT**

### VegaHQ Podcast

VegaHQ podcast was a project I started with a friend of mine. We hosted a podcast on the popular platform Twitch on a weekly basis.

On the podcast we discussed and explored many varying topics. We talked about actual topics such as space exploration, current scientific events and discoveries, conspiracy theories, gender topics and much more.

Within this project I actively developed my communication and audio/video skills. My colleagues and I also had to develop skills to plan content for a 2 hour live podcast every week.

## EDUCATION AND TRAINING

**01/09/2018 – CURRENT** – Vegova ulica 4, Ljubljana, Slovenia

### Computer Science

Elektrotehnično-računalniška strokovna šola in gimnazija Ljubljana (Vegova)

<https://www.vegova.si/>

## LANGUAGE SKILLS

**MOTHER TONGUE(S):** Slovenian

**OTHER LANGUAGE(S):**

**English**

<b>Listening</b> C1	<b>Reading</b> C1	<b>Spoken production</b> C1	<b>Spoken interaction</b> C1	<b>Writing</b> B2
------------------------	----------------------	--------------------------------	---------------------------------	----------------------

---

**German**

<b>Listening</b> A1	<b>Reading</b> A1	<b>Spoken production</b> A1	<b>Spoken interaction</b> A1	<b>Writing</b> A1
------------------------	----------------------	--------------------------------	---------------------------------	----------------------

---

## DIGITAL SKILLS

### Front-End Development

React.js / Vue.js / CSS / Flutter / CSS Frameworks (i.e., Bootstrap, Materialize CSS, Tailwind) / Bootstrap / HTML / ReactNative

### Back-End Development
